053-384-4827 saal4106@gmail.com Riyadh, Saudi Arabia

Profile

Fresh graduate from Colorado with a very strong background in computer science. Is looking to develop skills useful for industry and learning to interact between stakeholders and programmers. Speaks English very fluently (native language).

Education

University of Colorado at Boulder, Computer Science - Fall 2014

Specialty Flight Training inc. Basic ground school pilot's training (For private pilots) - Spring 2014

Southwestern Advantage, Internship in sales, motivation, and planning - Summer 2013

Skills

Posses a diverse skill set in most modern day programming languages and is capable of rapidly learning virtually any new languages, especially object-oriented programming languages.

(C/C++) Worked on rudimentary operating systems, basic OS cracking (e.g. buffer overflows), systems programming, OpenGL, etc...

(C#) Worked on a game development tool known as Unity to develop some fully interactive games for PC, Mac, and Linux. Available on request.

(Ruby) Familiar with most of the structure and used it to learn Ruby on Rails for web development.

(Scala) Made parsing programs and a small scale interpreter. Familiar with most of the structure of Scala and the scalability of the language.

(JavaScript) Used extensively in Unity game engine to create scripts for basic motor animations. Has some familiarity for using JavaScript in web development.

(HTML5) Currently learning and using to develop a website that will serve as a portfolio for works completed.

Updated: 4 - 24 - 15

(Github) Very familiar with the process and conventions of Github. Can even work remotely and/or manage teams working on single or multi-branching repository.

Competencies

Excellent communication skills and interpersonal skills with emphasis on working in groups or teams.

Great background on most modern-day IT and computer science topics—both software and hardware related.

Very adaptable when it comes to working with new software or hardware.

Competent in project planning, being continually service minded, and adapting to new environments.

Personal

Travelled through several countries in the world; greatly enjoys martial arts and outdoor activities such as hiking, biking, and parkour.
